

RX-102 Receiver

The RX-102 is a very sensitive receiver. It is capable of tracking industry standard transmitters with continuous, pulsed and A, B, or C coded signals. No need for a separate geophone, as one is built in!

Features:

- **Bright OLED display for all conditions**
- Displays graph of signal and geophone readings
- Adjustable graph speed and brightness
- Easy null measurements
- **Built in Geophone Amplifier**

Specifications:

- Batteries: 5x C Cell Alkaline
- Battery Life: > 100 hours at max. brightness
- Range: 100 feet free air (with external antenna and 4D transmitter)
- Temperature: -4°F to +130°F
-20°C to +54°C
- Warranty: 1 Year
- Kit Weight: 18 lb (8.2 kg)
- Kit Dimensions: 10.3" W x 24.4" L x 11.4" H

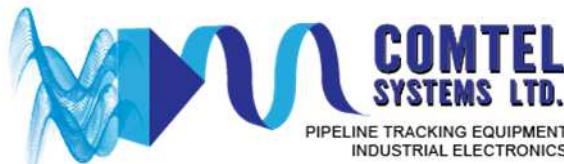

Kit Contents:

- Receiver with Long Range External Antenna (electronically amplified antenna also available)
- 50' Antenna Cable
- Geophone with 50' Cable
- 6' Vehicle Audio Cable
- Hard Case

Any RX-101 receiver can be upgraded to a RX-102 model!

Retrofitting will provide the new graph display and functionality.
